STATEMENT

My artsy spirit partnered with my analytical mind led me to graphic design where I found my passion! Design is everywhere and I notice every piece of it and how I can improve or change everything from a logo to an entire environment. As a professional designer in the Las Vegas area I have collaborated in the creation of many successful brands to budding entrepreneurs, stylish restaurants, and personal identity resumes for executives of small and large companies. My many personal experiences allow me to open my mind to new designs and see many solutions, while incorporating both tradition and innovation. My fresh take on design strategy creates a recognizable brand identity that communicates a consistent message. I continue to spread my wings toward new opportunities within any and every creative field or medium.
