My name is Michael Kehoe. I am a 5th year, thesis architecture student pursuing my Bachelors of Architecture at Rensselaer Polytechnic Institute in Troy, NY. Upon graduation in May of this year, I am looking to further build upon the knowledge, skills, and work ethic I have developed while attending Rensselaer. I am seeking a full-time position in the field of architecture where I could contribute throughout the building design process by bringing forth my design and problem solving skills.
