<http://www.adamvella.com.au>

I am an Australian born multidisciplinary designer, and recent graduate from the University of Western Sydney, where I studied toward a Bachelor of Design (Visual Communication) majoring in Interactive Design.

I approach my work focusing on a balance of intelligible objectives, functionality and design aesthetics, resulting in carefully considered idea driven work. I treat each brief with an open mind attempting to create visually pleasing solutions whilst trying to convey a little of myself in all the work I produce.
