---

I live for the moment of comprehension. That magical second when understanding happens. When the eyes widen and the mouth drops as the brain suddenly “gets it.” I aim for the big idea. I look for surprise! I truly appreciate the process of a design as much as the end result and I push my work to make a real impression by solving a problem from multiple perspectives. My name is Justin Chen. I look forward to working with you.

## WORK EXPERIENCE

---

San Francisco, CA,  
USA

Jul 2014 – Present
