Develop in a creative and professional way into photography and visual arts, as it was just a hobby, now I want to show my creativity and talent to the rest of the world through Behance and also work together with others colleagues and/or companies.

My objective is to obtain an entry position where I can gain more experience and to improve my skills and knowledge.

I am majored in photography at Foto Club Buenos Aires (Buenos Aires, Argentina) and now based in Zürich, Switzerland.

Here goes my portfolio and I am flexible with any kind of schedule

Please feel free to contact me for any assignment. Thanks a lot for your time.

Kind regards,
Cecilia Gonzalez-Ruedin
