
a designer on the mission to be better today.

EXPERIENCE

United Kingdom
Nov 2011 – Present

J2
Senior Creative

I work with an ever-growing team of creatives who build great brands and campaigns through creative thinking and intelligent design. My role involves executing design routes for our pitch work and other creative projects that flow through the studio, learning from the seniors, helping the juniors and enjoying the odd drink at our local. Its a great time to be a Designer

Wolverhampton,

Origin Media
Design Creative

During this role I grew from a kid with an idea about design to a Graphic Designer. This role gave me foundation, experience and opinion on design. I designed predominantly for print and some web. During the latter period I was able to introduce motionography into the agency, This producing-focused position refined me productivity and exposed me to a wide variety of print methods and applications.

EDUCATION

Sep 2001 – May 2005

University of Wolverhampton
BSc Virtual Reality Design

A modular based degree primarily focusing on 3D visualisation and architectural design. This course gave me insight into many areas of media while building my 3D skills. It honed my eye for design and nurtured my mind to think creatively.

The course also gave me an understanding of perception, reality and the world around us.
